

# Iterazio Plana 1

There is guidance within this template that appears in a style named InfoBlue. This style has a hidden font attribute that allows you to toggle whether it is visible or hidden in this template. Use the Microsoft® Word® menu Tools > Options > View > Hidden Text check box to toggle this setting. There is also an option for printing: Tools > Options > Print.

## 1. Mugarri garrantzitsuak

[Key dates showing timelines, such as start and end date; intermediate milestones; synchronization points with other teams; demos; and so on for the iteration.]

Mugarria	Data
Iterazio hasiera	
Iterazio amaiera	

## 2. Goi-mailako helburuak

[List the key objectives for the iteration, typically one to five. Examples follow.]

- Address usability issues raised by Department X.
- Deliver key scenarios that showcase meaningful integration with System Y.
- Present a technical demonstration (demo).

## 3. Lan ataza esleipenak

[This section should reference **either** the Work Items List, which provides information about what Work Items are to be addressed in which iteration by whom, **or** specifically call out the Work Items Lists to address in this iteration. The preferred solution depends on whether or not it is trivial for team members to find the subset of all Work Items that are assigned to the iteration by using search methods, rather than the Iteration Plan.]

Please see the Work Items List for Work Items to be addressed in this iteration.

or

The following Work Items will be addressed in this iteration:

Izena edo deskribapena	Lehenta suna	Tamaina estimazioa (puntuak)	Egoera	Erreferentzia materiala	Helburu iterazioa	Nori esleitua	Lan orduak	Falta diren lan orduen estimazioa

## 4. Arazoak

[List any issues to be solved during the iteration. Update status when new issues are reported during the daily meetings]

Arazoa	Egoera	Oharrak

## 5. Ebaluazio irizpideak

[A brief description of how to evaluate whether the high-level objectives were met. Examples follow.]

- **97% of system-level test cases passed.**
- **Walkthrough of iteration build with Departments X and Y received favorable response.**
- **Favorable response to technical demo.**

## 6. Ebaluazioa

[Use this section for capturing and communicating results and actions from assessments, which are typically done at the end of each iteration. If you don't do this, the team may not be able to improve the way they develop software.]

<b>Ebaluazio helburua</b>	This could be the entire iteration or just a specific component
<b>Ebaluazio data</b>	
<b>Partaideak</b>	
<b>Proiektuaren egoera</b>	For example, express as Red, Yellow, or Green.

- **Helburuekiko ebaluazioa**  
[Document whether you addressed the objectives as specified in the Iteration Plan.]
- **Planifikatutako eta burututako lan atazak**  
[Summarize whether all Work Items planned to be addressed in the iteration were addressed, and which Work Items were postponed or added.]
- **Proben emaitzen arabera ebaluazioa**  
[Document whether you met the evaluation criteria as specified in the Iteration Plan. This could include information such as “Demo for Department X was well-received, with some concerns raised around usability,” or “495 test cases were automated with a 98% pass rate. 9 test cases were deferred because the corresponding Work Items were postponed.”]
- **Beste kezka eta desbiderapenak**  
[List other areas that have been evaluated, such as financials, or schedule deviation, as well as Stakeholder feedback not captured elsewhere.]
